SUMMARY

Enthusiastic and detail-oriented professional with foundational knowledge in Java, SQL, and Selenium. Skilled in software development and database management. Eager to apply technical skills and contribute to delivering high-quality, efficient, and scalable software solutions.

EDUCATION

Priyadarshini JL College Of Engineering B.E (Computer Science) RTMNU University	Nagpur 2023
12th, Jeevan Vikas Vidyalaya Maharashtra State Board of Secondary and Higher Secondary Education, Pune	Umred 2019
10th, Jeevan Vikas Vidyalaya, WCL Maharashtra State Board of Secondary and Higher Secondary Education, Pune	Umred 2017

SKILLS

Technical Skills: Java (Core Java, OOPs, DSA), SQL, Selenium.

Tools & Software: Eclipse IDE, IntelliJ, Visual Studio Code, Adobe Photoshop, MS Office, Git, GitHub

PROJECTS EXPERIENCE

Student Grievance Redressal System

Technologies: Java, Firebase Realtime Database, Firebase Authentication

- Built a three-tier login system for students, committee, and admin.
- Enabled complaint submission, tracking, and response handling.
- Focused on role-based access and streamlined grievance workflows.

Weather App Using Java

Technologies: Java, OpenWeatherMap API

- Developed a weather forecasting application using Java that fetches real-time weather data from an API.
- Gained hands-on experience with API integration and efficient error handling.

Attendance Monitoring System

Technologies: Java (Swing using Eclipse IDE)

- Developed a software solution for schools and colleges to manage student attendance efficiently.
- Designed user interfaces and implemented back-end logic independently using Java.

Personal Portfolio Website

Technologies: HTML, CSS, JavaScript, GitHub Pages

- Developed a responsive portfolio to showcase projects, education, and contact information.
- Integrated interactive design elements and downloadable resume.
- Portfolio Link: <https://foreverxhb.github.io/My-Portfolio/>

CERTIFICATIONS & TRAINING

Full Stack Development Course - JSpiders & QSpiders

- An Intensive training program focused on Java Programming, SQL database management.
- Gained hands-on experience in building full-stack applications using object-oriented programming (OOP) principles, RESTful APIs and web services.
- Developed skills aligned with industry standards and with real-world SDE and Java Developer responsibilities

Accenture Technology Consulting Program Job Simulation - Forage

- Completed a job simulation designing a client product for Accenture Australia's public sector team.
- Developed interview strategies and questions to align client requirements with the project's design.
- Created a detailed process flow and design presentation for client review.

Certificate of Excellence in Unstop Weekly Coding Challenge #17 - 2025

- More than ten thousand students participated in this coding challenge.
- Achieved 1051 rank out of 10000 participants in Weekly Coding Challenge organized by Unstop.

Certificate of Excellence in Treasure Hunt Organized by Unstop

- Utilized critical thinking and pattern recognition to solve puzzles and navigate challenges.
- Enhanced observational skills and out-of-the-box thinking to uncover hidden answers.
- Ranked among top performers demonstrating strong analytical and reasoning abilities.
